

Introduction to Injury Prevention

Course Description

This 3-½ day course introduces participants to injuries as a public health problem. It addresses the principles of effective injury prevention through a combination of presentations, case histories, and group exercises. Emphasis is placed on the following core injury prevention program topics:

- The Public Health Approach
- Injury Data
- Program Design & Implementation
- Program Evaluation
- Coalitions & Collaborations
- Program Management
- Marketing & Advocacy

Course Objectives

Upon completion of the course, participants will be able to:

- Understand the public health impact of injuries in Tribal communities.
- Use data to identify injury patterns and contributing factors

in order to target comprehensive intervention strategies.

- Plan injury prevention interventions based on effective, public health strategies.
- Describe the benefits of community-based injury prevention coalitions and collaborations.
- Describe the stages of evaluation.
- Present injury prevention proposals to a community audience.

Date & Location

The course will be held in Bishop, California on April 19-22, 2005. Hotel information is forthcoming.

Registration

Course size and fees: Course enrollment is limited to 30 participants. There is no tuition charge for this course.

Who should attend? The target audience for this course is community members, tribal and IHS employees, and others who are interested in preventing injuries in their community, including but not limited to:

- tribal health board members
- tribal health directors
- tribal council members
- law enforcement
- emergency services personnel
- CHRs
- environmental health personnel
- injury coalition members
- injury prevention staff
- medical providers

How do I register? Complete the registration form attached to the back of this brochure and fax or mail it to any of the listed contacts from the Toiyabe Indian Health Project, Inc. no later than March 25th, 2005.

Nominees selected to attend will be notified in writing approximately 3 weeks in advance of the course. Only after notification should participants make travel and lodging arrangements.
